

Iowa Farm Bill Biologist Program

Pheasants Forever and Quail Forever (PF/QF) Farm Bill Biologists are specialized consultants in conservation programs and habitat planning. The purpose of Farm Bill Biologists is to assist landowners in designing, developing, and funding habitat improvements on private lands. Farm Bill Biologists possess the knowledge of federal, state, and local programs to assist landowners in finding the right program to meet their personal habitat and land use goals. Through a unique partnership, Farm Bill Biologists are located in local USDA service centers in priority habitat areas throughout the pheasant and quail range. The Iowa Farm Bill Biologist program would not be possible without our partners: USDA - Natural Resources Conservation Service, Iowa Department of Agriculture and Land Stewardship, local Soil and Water Conservation Districts, Loess Hills Alliance and local PF/QF chapters!

2017 Program Achievements

- 12 Farm Bill Biologists
- 6,020 Landowner Contacts
- 8,816 Acres Impacted
- 472 Habitat Proposals Written
- 192 Outreach Events Delivered
